

**HOMEWORK SUBMISSION GUIDELINES:
MATH 295/395 CRYPTOGRAPHY**

JOHN VOIGHT

Homework submitted must meet the following requirements:

- (1) The problems must be done in consecutive order.
- (2) Papers must be stapled (or paper-clipped).
- (3) You may attach a printout of the problems if you like, but do your work on a separate page (or pages).
- (4) Your handwriting should be legible!
- (5) Do not submit scratchwork; it is acceptable of course to turn in partial solutions.
- (6) If you use the computer, please print out your work (and code) and attach it.
- (7) Please show your work—but no need to belabor a point which has been clearly and concisely explained.
- (8) If you work with someone, please list them as a collaborator.

Work which does not meet these requirements will be returned ungraded.
